## Tasks of DAGENE are :

- to promote the activity of members and to represent their interests,
- to organize common scientific research and programmes,
- to collect information on native and endangered domestic animal breeds,
- to search for breeding animals in order to avoid inbreeding,
- to organize and to submit projects,
- to prepare materials for education and information disclosure,
- to co-operate with national and international institutions

# Structure

The members are natural and legal entities. The General Assembly, as the most important organ of decision making, holds meeting every two years. The decision are prepared by the Presidium at the yearly meetings. The President respresents the Association and the Executive Secretary is responsible for the management.
